Integrity. It's how we operate.

ABOUT US

Integrity Tool, Inc. is a specialized machine shop located in Batesville, Indiana, that serves the niche market of building inspection fixtures and precision gages.

Thousands of gages have been designed and built over the years ranging from simple handheld Go/NoGo attribute gages to complex fixtures incorporating PLC control, digital probes, and data collection. Though inspection fixtures have been our focus, we also have experience building weld fixtures and assembly fixtures.

WHY CHOOSE US?

Integrity is not just our name, it's who we are. It's our primary core value. It's the word that best describes how we strive to do business. Our definition is, it's doing the right thing every time, all the time, regardless of who's watching and regardless of the cost. At the end of the day, we want our customers to trust us and the products that we're providing to them.

OUR HISTORY

An orange hexagonal icon containing a black silhouette of a clock face with a circular arrow around it, indicating a cycle or history.

Integrity Tool, Inc started over 20 years ago with a couple of customers and a handful of machines in a dilapidated, old building.

Today, Integrity Tool has a fully renovated facility full of equipment, such as SolidWorks CAD, 3 and 5-axis machining capability, WEDM, Surface Grinding, Jig Grinding, OD grinding, and more.

WHO WE SERVE

An orange hexagonal icon containing a black silhouette of a car with a gear and a lightning bolt, representing automotive and industrial services.

Our ISO-9001 accredited shop is proud to serve customers throughout the Midwest in the automotive, aerospace, and defense industries. We also serve the agriculture, heavy duty truck, and appliance industries by providing accurate, rugged, and repeatable gages and inspection fixtures.
